About me

As a multimedia designer with 2 years of experience, I have honed my skills in creating visually engaging and interactive content across various mediums. I excel in using tools such as Adobe Creative Suite, Sketch, and Figma to design graphics, animations, and videos that effectively communicate brand messages and engage audiences.My experience includes collaborating closely with clients and team members to develop creative concepts and execute projects from start to finish. I am highly skilled in project management, ensuring that timelines are met and deliverables are of the highest quality. Additionally, I have experience in creating content for social media platforms, websites, and presentations.
